I have already paid my chapter membership fee for the 2008 – 2009 meeting year.

About the society: The Society of Fire Protection Engineers was established in 1950 and incorporated as an independent organization in 1971. It is the professional society representing those practicing the field of fire protection engineering. The Society has approximately 4500 members in the United States and abroad, and 57 regional chapters. The purpose of the Society is to advance the science and practice of fire protection engineering and its allied fields, to maintain a high ethical standard among its members and to foster fire protection engineering education.
